Cornelia Ellis – John Kuehn – Don Day

Prepared. For Life.™

Objectives

- Gifts of stock & procedures for acceptance
- Cleaning up your query folder
- Printing the Pledges Receivable aging report
- New – Volunteer Awards data list
- Giving Category and BSA Structure Cleanup

Gifts of Stock

- Stock is Payment Method
- Stock is not on year-end Contribution Statement
- Stock is an item donated. The donor gets letter thanking them for donating ## shares of stock from Company XYZ on date XX/XX/XXXX.
- Contribution value is determined by broker, based on the day they sent the stock to our council. What the BSA sells it for is not the value the donor receives.

Stock process

- Can be a payment on a pledge.
- Can be a donation.
- Once stock is recorded, it must be sold to finish the process.
- GL Distribution page is printed and given to accounting to determine gains and losses via journal entries.

John D. Kuehn

3/23/2021 Pledge: \$3,000.00

Transaction summary

Pledge amount: \$3,000.00

Date: 3/23/2021

Batch number:

Revenue ID: rev-44176142

Summary

Balance: \$0.00

Total paid: \$3,000.00

Past due: \$0.00

Status

Acknowledgements: Not acknowledged

Post status: Not posted

Post date: 3/23/2021

Post process ID:

Donor provides a pledge at the beginning of the year for your FOS Appeal.

Payment method

Payment method: Stock

Number of units: 5.000

Median price: 600.0000

Issuer: PWC

Symbol: xyz

Instead of cash the donor decides to send you Stock. Stock is a piece of paper that you must convert to cash. It can be added to the pledge to pay it off. Once your council sells the stock you must update the payment and sell the stock.

The GL Distribution tab can be printed and provided to the controller to help with entries in PeopleSoft. Gains and Losses are manual journal entries.

Prepared. For Life.™

Query Clean-Up

- Proceed to information library
- Arrange folder by date
- Add the last run date column
- Decide what query is no longer needed and delete.
- Oldest queries are your configuration queries. (Don't Delete)
- If they don't delete, the system will tell you what dependency they have. Delete the dependency and the query will delete.

The query folder below is organized by date created. You can add and subtract columns by clicking the columns button. The column of last time ran was added to see when the query was last used. Your configuration queries are the ones with the oldest create date. Try to avoid deleting these.

For example: the queries created by Gloria below should be reviewed and she may not need these since the Appeal and Constituent OTLP reports are available and can be used to generate constituent / donor list.

Ended: 3/25/2020 7:39:15 AM

Common dependencies (0) More ▼

Dependency name	Dependency type	Prevents delete	Additional dependency info
-----------------	-----------------	-----------------	----------------------------

Other dependencies (2) More ▼

Dependency name	Dependency type	Prevents delete	Additional dependency info
Global Pledge Write-off Process	Global Pledge Write-off Process		This table contains information pertaining to the pledge write-off business process.
CMS Query Publishing	CMS Query Publishing		Indicates if a given query has been published in the CMS.

To run dependencies, drop the chevron next to the query and click the “Dependencies” button. Then click “Generate dependencies list”. The process will run and provide a list for you to review. The example here shows that this query is used with the Global Write-Off process. You would not want to delete it.

Deleting Exports

- Proceed to Administration/Exports
- Exports that will show have your site or LC Global
- **Do not Delete LC Global Exports.**
- Change the columns to include last run on
- Decide if you still use your exports
- Drop Chevron and delete export if not needed

- Review Exports by last run date. You can add the column by clicking the “Columns” button.
- Exports have query / selections attached. To delete a query the export must be deleted first
- To delete an export, drop the chevron and click delete
