

Scouts BSA Roundtable Discussion

Special Needs and Disabilities in Scouting

1. What is the “invisible” disability you are aware of and what are some ways to accommodate those needs?
2. What are some ways you can teach your Scouts about people with disabilities...even if you are not aware of any in your unit?
3. What questions could you ask your scouts during the unit outing planning process to encourage them to plan an outing all their peers can participate in and enjoy.
