Exploring's Journey to Excellence

2024 Post/Club Planning, Performance, and Recognition

Journey to Excellence uses a balanced approach to measure performance. The objectives were developed following extensive research into proven indicators of enduring post and club programs. It guides program planning before the year begins, monitors activities for continuous improvement during the year, and recognizes performance at the end of the year. In planning your strategy, use actual numbers from the previous renewal year to chart your progress. Use the criteria in planning your strategy for the coming year to guide your performance improvement. The youth officers should take the lead in making this assessment. The period for measuring performance will be the calendar year.
